

Pia Kretz | Data Manager Climate Accounting

Carbon accounting – Certification management

As a data manager for climate accounting, Pia Kretz works at Hamburg Institut in the areas of accounting, verification systems and certification management for the ok-power eco-label.

During her master's degree in sustainability science at the Leuphana University in Lüneburg, Pia Kretz worked as a student trainee at Hamburg Institut for several years, providing support in particular in advising companies on the topic of climate neutrality. Prior to this, she completed a bachelor's degree in business administration and gained further practical experience as a working student in several companies.

Consulting and research focus
